Issue 04-2013

**Next Meeting: Tuesday, May 21, 2013
7:00 PM**

**Location: The Fab Lab at NCC in South
Bethlehem**

Speaker: Jeffrey Boerner

Topic: The Fab Lab at NCC

Last meeting highlights:

Allen Powell has a piece he built and some of the boards were cupping and splitting. He asked for any advice at the March Meeting. He reported back that he cut the top and glued the pieces back together to eliminate the problem.

Jeffrey Boerner gave a very nice presentation on the Fab Lab at Northampton Community College. He discussed his background, how he got interested in woodworking and how he had his own business for many years. He now enjoys teaching woodworking and guitar making.

He discussed with words and video the Fab Lab concept and some of the tools they use there including standard hand and power tools and more specialized machinery including a 3-D Printer, a CNC Router and a Laser Etcher/Cutter.

Pictures of the meeting are on the last pages of this newsletter.
